There will be 4-5 different choreographers that the students could be working with. A master calendar will be provided

A choreographer can pull someone from the routine if there is excessive absence or the student is not making an effort to learn and practice the routine. There will be plenty of rehearsals where the routine will be taught. Once the routine is complete, we will be working on making it clean and in unison. Those practices are just as important. Most routines will have vocal rehearsals as well as dance rehearsals.

Please make sure if you are needed at both that you attend both vocal and dance for the roles you are cast in.
